

Vulnerability Disclosure Policy – beebyte (IC Public)

At beebyte, we take security seriously and value the contributions of security researchers and responsible individuals who help us improve the safety and reliability of our services.

If you believe you have discovered a vulnerability or a security flaw in any of our systems or services, we ask that you report it to us responsibly.

How to report

Please report any findings via our website at:

Use the contact form and include the following information:

- A clear and detailed description of the vulnerability
- Steps to reproduce the issue
- Potential impact
- Your contact information (email or phone)

We recommend that you **do not** include any sensitive data in the contact form beyond what's necessary to describe the issue. If we need further information, we will contact you through the details you provide.

Guidelines

We kindly ask that you:

- Do not publicly disclose the vulnerability before we have had a reasonable amount of time to investigate and resolve the issue
- Avoid accessing or modifying data that is not your own
- Do not perform actions that could impact the availability of our services (e.g. DoS attacks)
- Act in good faith and within the boundaries of responsible disclosure

Our commitment

- We will acknowledge your report as soon as possible (usually within 5 working days)
- We will keep you informed of our progress during the investigation and resolution
- If appropriate, we are happy to acknowledge your contribution publicly (with your consent)

Thank you for helping us keep beebyte secure.
